CONSUMER EXPENDITURES AND INCOME

Rural Farm Population, Western Region, 1961

Summary Tabulations Classified by Pairs of Family Characteristics

(Tables 11-28)

This is the second report on the expenditures for family living, income, and savings of rural farm families in the Western region,¹ from the 1960-61 Survey of Consumer Expenditures. It presents summary data classified by pairs of family characteristics. The earlier report² presented the data classified by the same characteristics singly. The information is presented here as source material without analysis.

The nationwide Survey of Consumer Expenditures on which this report is based was a cooperative undertaking of the U.S. Department of Agriculture (USDA) and the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. The

survey data were collected by USDA from rural farm families, by USDA and BLS jointly from rural nonfarm families, and by BLS from urban families. Comparable reports of data for rural nonfarm and all U.S. families are available from the USDA; reports for urban families, from BLS.³ Insofar as possible, the table numbers and format and the general content of the reports by the two Departments have been kept the same for all population groups.

Consumer Expenditure Survey Reports 1 through 5 carry a methodological statement covering sample design, collecting and processing the data, weighting the data, evaluating the data, guides to interpreting statistical summaries, and definitions of terms used in the tables. For the convenience of the user of these tables, the definitions are repeated in this publication. For other methodological information the reader is referred to the earlier publications.

³ See inside back cover for complete list of reports from the survey.

¹ The Western region includes Washington, Oregon, California, Idaho, Montana, Wyoming, Nevada, Utah, Colorado, Arizona, New Mexico, Alaska, and Hawaii.

NOTE: For ease in making comparisons among regions and population groups, the numbering of tables in all reports is consistent. However, two groups of tables have been omitted from this report: (1) In the West all families in the sample were white. Tables for white families by occupation of the family head, by income class, and by

tenure therefore duplicate the tables for all families by these classifications in Report 4 and have not been repeated. (2) Tables in which all cells are small have also been omitted. Cell counts of this group are given below; the data are available on request for those who wish to make combinations with published cells.

DEFINITIONS

Account-Balancing Difference. The difference between reported total receipts and reported total disbursements arising from reporting errors. Total receipts consist of income after taxes, other money receipts, and moneys or credit received from decreasing assets or increasing liabilities. Total disbursements consist of expenditures for current consumption, personal insurance, gifts and contributions, and outlays of money that resulted in increasing assets or decreasing liabilities.

Assets, Decreases in. Decreases in cash holdings, farm and other business investments (including inventories of crops and livestock), and money owed to the family; sale of owner-occupied dwellings, other real property, and personal property; sale or retirement of stocks and bonds; settlement

or surrender of personal insurance policies; and decreases in other assets.

Assets, Increases in. Increases in cash holdings, farm and other business investments (including inventories of crops and livestock), and money owed to the family; purchase and improvement of dwellings and other real property; purchases of stock and bonds; and increases in other assets.

Automobile Transportation. Share of purchase and operation of automobiles and trucks not assignable to farm or other business use. Purchase is net of trade-in allowances (or sale) and discounts, but includes financing charges.

Consumer Unit. See **Family**.

Dwellings, Owned. For farm dwellings, the respondent's estimate of the proportion of total taxes, interest, and insurance chargeable to dwelling rather than farm business; for nonfarm dwellings and vacation homes, taxes, insurance, and mortgage interest; and for farm and nonfarm dwellings, repairs. Excludes payments on mortgage principal and for home improvements, which are counted as decreases in liabilities.

Dwellings, Rented. Rent or respondent's estimate of rental value when dwelling was included in rent of farm. Also includes repairs paid for by family.

Education of Family Head. Years of school completed during or before the survey year, in elementary or high school, college, university, or professional school. Eight years or less corresponds to years or grades completed in elementary school; 9–12 years, to the completion of 1 to 4 years of high school; 13–16 years, to the completion of 1 to 4 years of college; and over 16 years, to postgraduate work after college. All persons in the latter class were recorded as having completed 17 years of school. Persons who gave no information on the extent of their education were included in the class "8 years or less."

Expenditures for Current Consumption (or Current Living Expenses). The cost of goods and services for family living (including financing charges and sales and excise taxes) bought during the survey year, whether or not payments were completed during the year. Consumer durable goods such as automobiles and household equipment were considered consumption items, but purchase and sale of dwellings were considered as changes in assets. Family expenditures for items used partially for business, such as the car, were adjusted to exclude the amount chargeable to business use. The value of two nonmoney items—food and housing received as pay—were counted as money income and expenditures. Home-produced food is not included in expenditures.

Family. The family, or consumer unit, refers to: (1) a group of people usually living together who pooled their income and drew from a common fund for their major items of expense; or (2) a person who lived alone or in a household with others but was financially independent, i.e., his income was not pooled and his expenditures were not met from a common fund. Never-married children living with parents were always considered as members of the consumer unit. Information was recorded for the family as it existed in the survey year.

Family Head. In husband-wife families, the husband was considered the head. In other types

of families, the person recognized as the head by other family members was so designated.

Family Size. The number of equivalent, full-year members, derived by dividing by 52 weeks the total number of weeks in the survey year during which both full-year and part-year members belonged to the family.

Family Type. Families were classified in seven types, based on the relationship of family members and the age of the children of the head of the family, as follows:

Husband and wife, no other persons present.

Husband, wife, and children¹ only, oldest child under 6 years.

Husband, wife, and children¹ only, oldest child 6–17 years.

Husband, wife, and children¹ only, oldest child 18 years or over.

Husband, wife, with or without children,¹ with other persons.

Broken families (one parent and children¹), no other persons.

All other consumer units, including one-person families.

Farm. This survey followed the definition used in the 1960 Census. Dwellings were classified as on farms if they were on places of 10 or more acres from which sales of farm products amounted to \$50 or more in 1961, or if sales were \$250 or more, regardless of acreage. A dwelling is not considered to be on the "place" if it is rented without the farm land or if the farm land is rented without it. The universe was all families living on farms.

Gifts and Contributions. Cash contributions to persons outside the family and to welfare, religious, educational, and other organizations; and the cost of goods and services purchased in the survey year and given to persons outside the family.

Household Operations. Laundry and laundry supplies, cleaning supplies, household paper supplies, domestic service, day nursery care, telephone and telegraph charges, postage, moving costs, and repairs to furnishings and equipment.

Housing, Total. For the regions but not for the United States, includes expenses on real estate not used for family business and not occupied or rented, which are not listed separately in the accompanying tables.

Liabilities, Decreases and Increases in. Changes in mortgage debt; money owned to banks, insurance companies, etc.; money owed for rent, taxes, automobiles, housefurnishings and equipment, and other goods and services; and changes in other liabilities.

¹ Own, adopted, or stepchildren of head.

Money Income After Taxes. Total income (see **Money Income Before Taxes**) after deduction of personal taxes (Federal, State, and local income taxes, poll taxes, and personal property taxes).

Money Income Before Taxes. Total income during the survey year of all family members from wages and salaries (including tips and bonuses) after deductions for such occupational expenses as tools, special required equipment, and union dues; net income from self-employment (including farming); and income other than earnings such as net rents, interest, dividends, Social Security benefits, pensions, disability insurance, trust funds, small gifts of cash, regular contributions for support, public assistance, or other governmental payments. The value of two nonmoney items—food and housing received as pay—was counted as money income and as expenditures. Farm income was adjusted for change in inventory of crops and livestock. The value of home-produced food did not enter into the computation of income.

Net Change in Assets and Liabilities. The algebraic sum of increases and decreases in assets and liabilities. Net increases in assets or decreases in liabilities represent a net saving during the year. Net decreases in assets or increases in liabilities represent a deficit (—) or net dissaving.

Number of Full-Time Earners. A count of family members who were employed 48 weeks or more in the survey year, and for 35 hours or more per week in wage and salary occupations. All farm operators were counted as full-time earners if they operated the farm throughout the year. Members employed in industries where customary full-time employment is less than 48 weeks or 35 hours per week (e.g., school systems or airlines) were also counted as full-time earners. The minimum-hours requirement did not apply to self-employed workers in an unincorporated business or profession.

Occupation of Family Head. Generally, the occupation in which the head was employed for the largest number of weeks in the survey year. The classification was made in accordance with the 1960 Census of Population, *Alphabetical Index of Occupations and Industries*, except that the self-employed (including farmers, businessmen, professionals, and artisans) were separated from salaried managers, officials, and professional workers. Also members of the Armed Forces, living off base, and therefore eligible for the survey, were classified separately.

Since the operation of a farm was considered full-time employment, it was possible for a farm operator to have two full-time occupations. In this case, he was assigned the code of the occupation considered to be the major one in terms of

earnings and the size of the farm operation. The class "retired" includes those wholly retired and those with earnings less than their retirement income.

Other Expenditures. Interest on personal loans, funeral expenses, legal expenses, bank service charges, money lost or stolen, allowances to children, all-expense tours, and similar expenses that cannot be allocated elsewhere.

Other Money Receipts. Inheritances and occasional large gifts of money less taxes, legal fees, and other expenses required to obtain such receipts; and net receipts from the lump-sum settlement of fire and accident insurance policies. Gifts and inheritances in the form of real estate, securities, and other property were not included unless they had been sold during the survey year.

Other Shelter. Rented vacation homes and other lodging while away from home at school, work, or traveling.

Other Transportation. Public transportation; shared or rented car; purchase, rental, and operation of bicycles, motorcycles, scooters, trailers, boats, and planes.

Personal Insurance. Payments or deductions from pay for life, endowment, and annuity insurance; fraternal, union, and other mutual aid insurance; Social Security; and railroad, government, and other retirement plans. Employer's contributions are not included.

Race. The term "race" refers to the classification of families in three groups: White, Negro, and other. "Other" includes Japanese, Chinese, American Indians, and other nonwhite races except Negroes.

Recreation. Purchase and repair of televisions, radios, phonographs, musical instruments, and related items; spectator admissions to movies, sports events, concerts, etc.; dues, fees, and equipment for participant sports; club membership; hobbies; pets; and toys and play equipment. Vacation and other recreational travel expenses are included in automobile and other transportation, food, and lodging away from home.

Standard Metropolitan Statistical Area (SMSA). Except in New England, the county or group of contiguous counties that contains at least one city of 50,000 inhabitants or more, or twin cities with a combined population of at least 50,000. In addition to the county or counties containing such a city or cities, contiguous counties are included in an SMSA if they are essentially metro-

politan in character and are socially and economically integrated with the central city. In New England, SMSA boundaries follow town lines.

Tenure. The tenure of the family at its principal place of residence during the entire survey year. Families who were owners part of the year and renters part of the year were classified as "Other."

Value of Items Received Without Expense.

The estimated money value of goods and services received as gifts, in exchange for trading stamps, or from public or private welfare agencies, and of all goods and services received as pay except food and rent. Includes employer's contributions to health insurance plans. Does not include the value of home-produced food; this value will be shown in later tabulations.
